Club Prize Money – January 2024

At the start of the 2018 Season Club Prize Money became available to all Full Members.

From the start of the 2023 Season Club Prize Money has been derived from Full Member Subscriptions minus Fixed Costs, therefore balancing and linked to the level of Full Membership therefore affordable.

Also from the Start of the 2023 Season the 10 match Aggregate Series and the 10 Match Series on Pools were both sponsored by £100 for the Series winners ie, $2 \times £100 = £200$.

After deducting £200 from Club Prize Money the result "available Match Club Prize Money" is spread evenly over the 20 sponsored matches. This seasonal amount is divided by three and paid to the first three in all 20 matches.

As the amount of available Match Club Prize Money will vary based upon level of Full Membership the three cash prizes paid for each match will vary seasonally.

In 2023 the available Club Prize Money increased to a record level due to linking Club Prize Money to Full Membership ensuring a seasonal balance.
