

WQMN Fladbury Samples

GirlingAS Fladbury WQMN Measurements

Fladbury Electrical Conductivity (uS/cm)

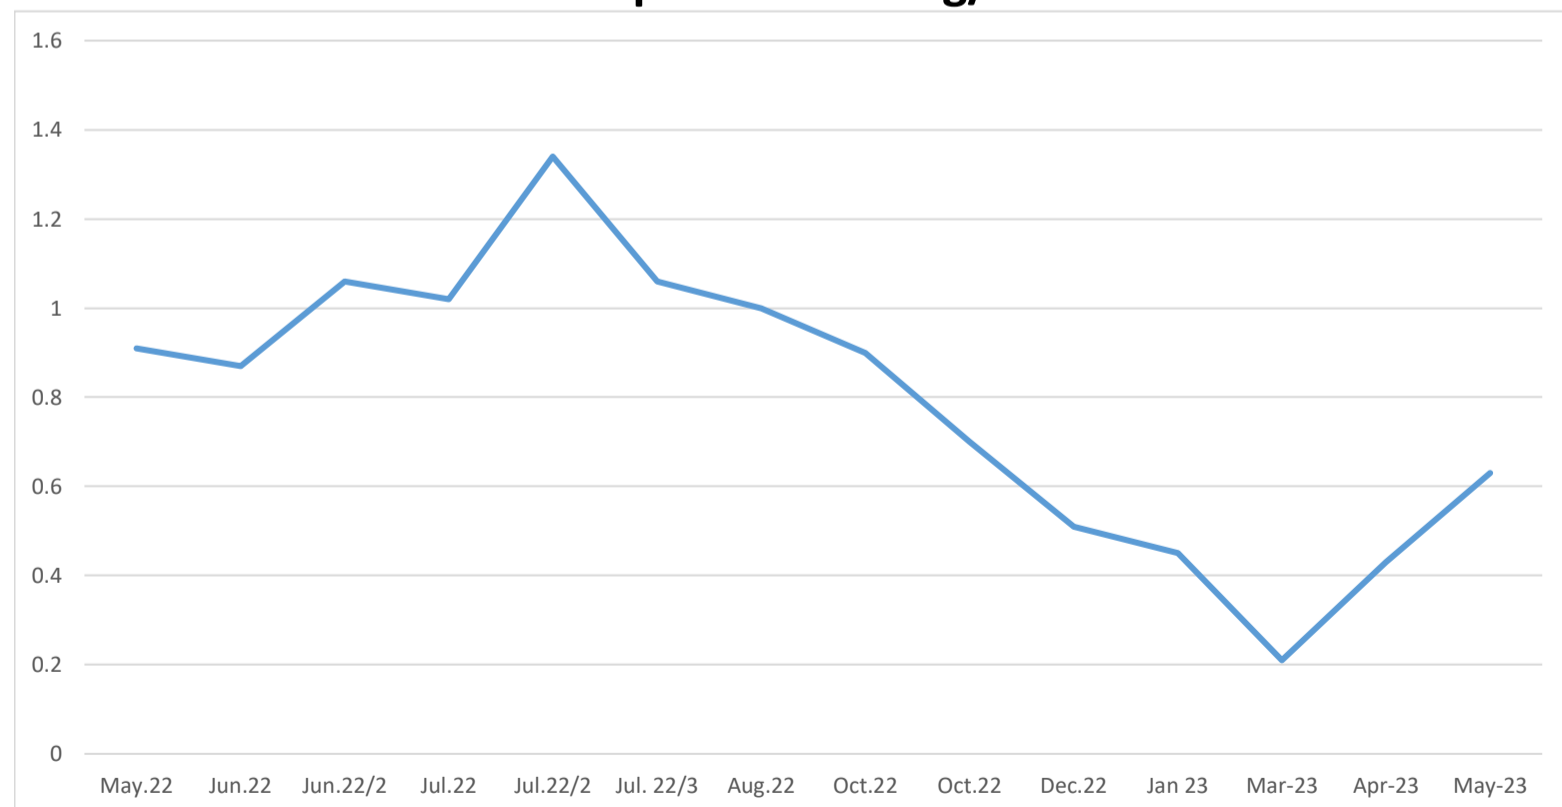

Water Temp (Deg. C)

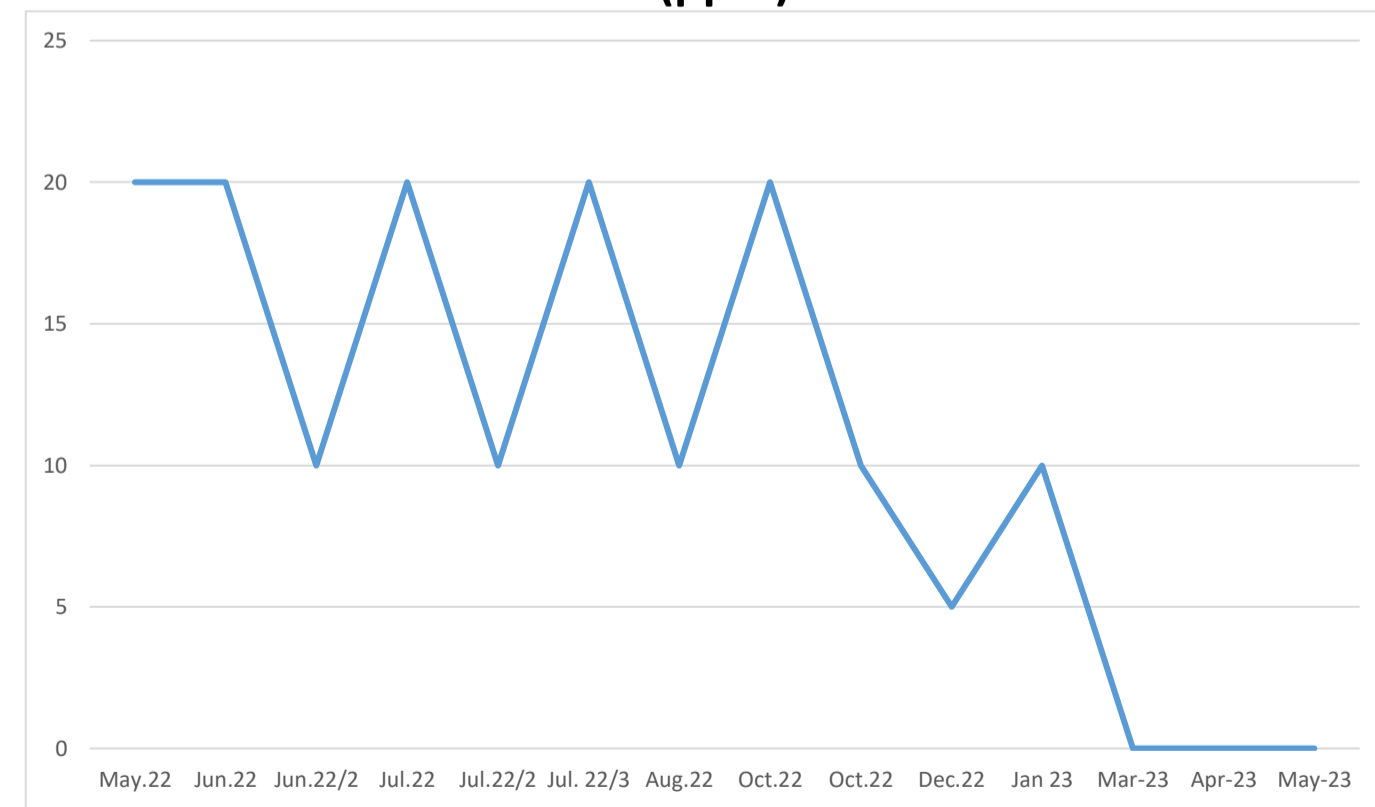

Typical Chalk Stream value is 100-200 uS/cm (ideal)
High Conductivity indicates the presence of dissolved solids

Phosphate Level mg/l

EA quoted typical meas't at Jubilee Bridge is 0.1 mg/l
November 2021 0.86 mg/l & December 2021 0.91 mg/l (not shown)

Nitrate (ppm)

No standard for Rives, Lakes & Reservoirs 0.75 - 1.5 mg/l (ppm)
